[text] Forex Brokers News Exness Broker Review EXNESS is ending support for EXNESS MT4 droidTrader, the mobile app for iOS and Android, and WebTrader. However, you can still use the terminal from Metaquotes for trading on your smarthphones and tablets. For fast access to the forex market and trading on your EXNESS account, you can use the official MetaTrader 4 app by downloading it iniTunes (iOS) or Play Market (Android). You can download other versions of the trading terminal on the EXNESS website. Installation instructions are available in the «Library» section. Latest Forex Brokers News by PipSafe [/text]
