Factors affecting the probability winning Pipsafe competition depend on as follows:

- User approved by Pipsafe **1 point.**
- Pipsafe live account **14 points**.
- If in recent months continuously earn rebate , points equal to the **number of rebate multiplied by 30**.
- If in recent months continuously not gaining rebate, points equal to the **number of rebate multiplied by 20**.
- For example, the user A in last 3 months with in 5 months continuously obtain rebate => Points = 3 * 30
- For example, the user B in last 2 months with in 5 months non continuously get rebate => Points = 2 * 20
- In short, the client who gaining in continually higher amount of rebate have more chances of winning .
