

Application Mobile Trading launched for Android -LiteForex launched a new application “Mobile Trading” that provides a full set of options for managing your profile, carrying out non-trading operations on your accounts and installing mobile platforms. The whole of functions available in the browser version of LiteForex’s Client profile will be added soon, including the popular Social Trading service. Trading can be done directly from the app, with no necessity to install any other applications. **Source:**[LiteForex Broker](#)
