

PCN Swap Manual

• Adding TronLink Chrome Extension

You need to have a Chrome browser installed on your operating system in order to use the TronLink wallet on your computer.

- Please copy the following link and paste it into the address bar of your Chrome browser: <u>https://chrome.google.com/webstore/detail/tronlink/ibnejdfjmmk</u> <u>pcnlpebklmnkoeoihofec</u>
- 2. After opening the link, click on 'Add to Chrome' and select 'Add extension' in the pop-up window.

| Cr | rome web store | \$ |

| | Home Distensions Translink TronLink Orfered by: Rainco Pie Ltd *** * 286 Productivity 0400,000+ users | Add to Chune |
| | <page-header></page-header> | Add to Chrome |
| | • • • • | |

After installation, a purple icon will show up under 'extensions' in the upper right corner of your browser.

3. Click on the extension to open it. Now you have two options to choose from. If you are using TronLink for the first time, select 'Create Wallet,' and if you have previously installed the TronLink App on your cell phone, select 'Import Wallet.' We suppose that you are using the wallet for the first time.

| | <u>.</u> | | | <u></u> | |
| | | | _ | | , |

- Click on 'Create Wallet' and scroll down the User Agreement terms until the 'I agree, no more reminders' icon is activated, and then select the button.
- 5. On the following page, you must type in a name for your wallet and encrypt it with a strong password that meets the required standards. After inserting the required information, select 'Create Wallet.'

6. Then, you are required to enter your password again to access

the wallet.

- 7. Select 'Back up Wallet' as you open the wallet.
- 8. Click on 'View Mnemonic Phrase' to see your seeds (recovery words). A list of twelve words then appears on the screen. These words are the only way to recover your wallet or import it on another device. We strongly recommend that you write them down IN THE SAME ORDER AS DISPLAYED on a piece of paper and keep it somewhere secure. Taking screenshots is not recommended as it makes your mnemonic phrase susceptible to attackers. Please note that anyone who has access to your mallet and that TronLink will not store the phrase, so if you lose it, your wallet's assets are effectively irrecoverable. Thus, please DO NOT SHARE THE RECOVERY WORDS WITH ANYONE AND DO NOT LOSE THEM.

10. After confirming the backup, your wallet is successfully installed and ready to use. As you can see, a

list of popular cryptocurrencies that are transferable on the Tron blockchain and supported by the

TronLink wallet will appear on the screen. The supported

cryptocurrencies include Tron (TRX), BitTorrent Token (BTT), USD Tether (USDT), USD Just (USDJ), StorX (SRX), Tronipay (TRP), etc.

• Adding PCN to Sunswap

- 1. Open the Chrome browser, go to <u>www.tronscan.org</u> and enter PCN in the search bar.
- 2. Select 'PipCoin (PCN)' to open the token's description page.

3. Select and copy the token's contract address (you can click on the little icon in front of the address to copy it).

 Go to <u>www.sunswap.com</u>. The webpage shows a 'Swap' box with two blanks fields: the first field is 'From,' which is set on TRX by default, and the second is 'To,'

which you have to set to PCN.

 Click on 'Select a token' and paste the contract address into the search bar on the right side of the second blank space.

• Swap TRX for PCN

To change your TRX to PCN, set the 'From' field to 'TRX' and enter the desired amount. Then set the 'To'

field to PCN and select 'Swap,' confirm the transaction and select 'Sign' on the pop-up window to complete

the transaction.

Please note that you may not see it on your TronLink wallet

homepage after the transaction has been

conducted. This does not mean that the transaction was unsuccessful.

To see the asset on the homepage,

click on the '+' icon on the middle right side of the $\ensuremath{\mathsf{TronLink}}$

extension, search the asset's name or contact address, and select the '+' icon in front of it the asset. Now you can see the asset on your wallet's homepage.
