

[text] **Forex Brokers News Rouble Trading Suspended Until Further Notice FxPro Broker:** Due to the current Russian Rouble market conditions, trading on USDRUB & EURRUB will be suspended across all platforms until further notice. The decision has been taken by FxPro due to the lack of liquidity available from our Liquidity Providers and the extreme volatility which is currently being seen in both RUB pairs. FxPro will resume pricing these pairs once the market stability returns and our Liquidity providers are providing sufficient liquidity for RUB pairs to be tradable. **Latest Forex Brokers News by PipSafe.com** [/text]
