[Broker](#) Sell on a level breakthrough of 1.2082 with 1.1944 target.

Stop loss = 1.2140. Reason for the trading strategy Today, Canada's

and the United States' foreign trade statistics will be published. A

reduction in Canada's trade deficit and a decline in the US net

exports are likely to put pressure on the USD/CAD pair. A sharp

strengthening of the US dollar in Q1 2015 reduces the

competitiveness of the US products in international markets causing

concern to the American regulator. [USD/CAD Chart](#)
