

[text] **USD/CHF Analysis 22 ,May 2015 Source: [ACFX Broker](#) The intraday technical outlook** Thursday USDCHF closed the day unchanged. This morning I am monitoring the price action for a test of the 0.9340 level. Alternatively a failure to sustain a move lower could see USDCHF test the 0.9385 level. From a technical perspective USDCHF is trading in an intraday 1 hour up trend with the line of control at the 0.9250 level. **USD/CHF Chart**
