Source: [Exness Forex Broker](#) Sell on a level breakthrough of 0.9460 with 0.9404 target. Stop loss = 0.9510. **Reason for the trading strategy** In April, the Swiss trade balance grew from 2.5 billion to 2.86 billion Swiss francs. Growth of this indicator, included in the structure of the country's GDP, will provide support for the franc. Additional pressure on the USD/CHF pair creates a weakness of the US dollar against the euro. **USDCHF Chart**
