

[text] **EUR/USD Analysis 2015.06.19** A rebound from new support established at 1.1204/03, and as we had expected on Thursday a push above 1.1380/86 to aim higher Friday. Furthermore, whilst above 1.0819 we see a bullish bias through mid-June (from the prior push up through 1.1208). **For Today:** We see an upside bias for 1.1426; break here aims for 1.1467, maybe even for 1.1500. But below 1.1327 opens risk down to 1.1250 and maybe back to 1.1204/03.

**Short/ Intermediate-term Outlook - Upside Risks:** We see a positive tone with the bullish threat to 1.1467. Above here targets 1.1534 and 1.1680. Overshoot risk is higher for 1.1871.
