This morning, the greenback is trading lower against most of the major currencies, ahead of the keenly awaited outcome of the Fed's interest rate decision, scheduled in a few hours. It is widely anticipated that the Fed would keep interest rates unchanged, leaving mid-December as the last chance for the central bank's rate setting committee to raise rates this year. The EUR is trading higher against the USD. The German Gfk consumer confidence index eased for the third straight month and fell in-line with market expectations in November, with the migrant crisis weighing on economic expectations. Moving forward, the German unemployment data, scheduled tomorrow would garner lot of market attention. The JPY edged higher against the USD. Overnight data, revealed that the nation's retail trade rose less-than-expected on a monthly basis in September. Yesterday, the greenback traded higher in the New York session against the key currencies, after the US durable goods orders declined for the second consecutive month in September, albeit it was less-than-expected fall. Meanwhile, the consumer confidence index registered a surprise drop in October, indicating that the US consumers were feeling less optimistic about the nation's economy and the flash Markit services PMI also eased unexpectedly in the same month, suggesting that the growth in the service sector is slowing down.
