 3. Total trading volume is at least 1 standard lot (100 cent lots) during the period of the lottery.
3. The total prize fund is calculated based on total trading volume of all participating clients and then split by levels.
4. The prize fund will be split by the levels based on the trading volume of clients at every level.

Levels chart:

Your trading volume: Your level:

From 100 standard lots level 4

From 25 standard lots level 3

From 6 standard lots level 2

From 1 standard lot level 1

1. Your potential prize depends on your level.
2. Up to date information regarding the drawing, possible prize at your level and trading volume is found on the main page of your Trader Room. Information updates every hour.
3. Only 4 winners will be chosen randomly - one winner for each level.
4. The higher is the level, the less is the number of potential competitors, the bigger are the chances to win.
5. To receive the prize you will need to verify your account. If the account wasn't verified within 5 business days after the announcement of the lottery results, new winner will be selected.
6. Prize money will be credited into the winner's trading account within 10 business days since the announcement of results.
7. The list of the winners will be published on the main page of the website.
8. Every winner will be contacted by the representative of the Company.
