## About FXCC

## About FXCC

FXCC is a regulated Foreign Exchange Broker that offers a wide range of trading technologies and services. Our ECN/STP business

model allows our clients to take advantage of transparent real-time pricing. All our clients have access to a unique Forex Trading environment that offers sophisticated STP (Straight Through Processing) liquidity, execution and trading functionality. Our Non-dealing desk model allows client orders to be executed automatically and instantaneously through our Market network of liquidity providers. FXCCs business model (ECN/STP) offers complete anonymity, full transparency, advanced execution, direct and competitive market prices and spreads. This creates a trading environment with no re-quotes and no conflict of interests or bias against any trader or forex trading system including automated systems and forex scalping.
