[About AdamantFinance](#) Adamant Finance is a financial services company, that enables both private persons and other companies to trade on the foreign exchange market or Forex. Our brokerage company was established in 2014 and our goal is to provide the newest technological solutions, which enable to take our clients'

transactions straight to the exchange. Our partners include large banks and funds, whose liquidity is available to our clients. We use ECN-NDD technology, which enables us to offer the best terms of trade to our clients, without any intervention from a dealer, thus ruling out the human factor. [Adamant Finance](#) – a state-of-the-art method for trading – unbelievably low commission charges, no transactions rejected, STP and DMA systems, complete transparency and the newest trading opportunities. ECN/STP Forex broker Adamant Finance – an international brokerage company that enables both private persons and other companies to trade on the foreign exchange market. Trading is done via the MetaTrader 4 platform. We offer a wide range of trading instruments: currencies (Forex), American stocks, futures, indexes and precious metals. All of that with minimal spreads and no commission fees. **Licenses and Regulations** Adamant Finance Company operates under the jurisdiction of St. Vincent and the Grenadines. Regulation and supervision of financial firms controls on international markets for the supervision of financial services (IFSA).
